

The Whiteley Action Group is a working party of Whiteley Parish Council. The group has been formed to look at ways of saving energy in the home. The group currently has two projects:

1. The Whiteley Energy Weekend. This is an event that will take place on the 10/11/12 September 2010 in Whiteley Village. The theme is "Save money this winter". The major energy suppliers, suppliers of energy-saving goods such as solar panels, cavity wall and loft insulation, and double glazing, are being contacted to provide a wide range of interesting 'stalls' for the market. Fareham Borough Council and Winchester City Council will attend with their recycling and green initiatives. The local schools have also been invited to participate both before and during the event.

During the event you can enter our competition with a chance to win £1000 towards your energy bills for one year, from Southern Electric. During the event we also have a colouring competition for children, with great prizes. You can find out how much energy it takes to make a smoothie, with our pedal-powered smoothie maker, and have a go at a pedal-powered hovercraft!

If you would like to participate in the Whiteley Energy Weekend, please contact Al Menzies (email al.menzies@whiteleypc.info or phone 01489 588501).

2. The Whiteley Action Group has a number of electricity usage monitors that can be used to monitor both the amount and the cost of electricity used in the home. If you live on Whiteley, and would like to borrow a monitor for a two-week period, please contact Neil Richardson on 07825 014164. He will fit the monitor for you and give you tips on bringing down your energy usage.

If you would like any more information on the work of the group, or on the Whiteley Energy Weekend, please contact Al Menzies (email al.menzies@whiteleypc.info or phone 01489 588501).
