

Whiteley Parish Council

Young Peoples' Questionnaire 2008

Report on results

connect with
Marketing Means

1. Background & method

This report represents the findings of a survey conducted by Marketing Means on behalf of Whiteley Parish Council.

The survey was conducted to determine a broad range of issues regarding views of young people under 18 who are resident in Whiteley, to understand:

- What young people do in Whiteley
- Views on Whiteley as a place to live
- Young people's service usage and transport needs
- What they want from any future development of Whiteley

The survey was administered by post, with one survey accompanying the general residents' survey sent to all addresses within Whiteley on 12th May 2008, with a closing date of 30th May 2008. The survey was accompanied by a covering letter and a reply paid envelope and was designed using Formic in order that responses could be scanned for data-entry. Replies were received and data entered by Marketing Means and analysed using SPSS.

This method was chosen as it guaranteed that all households had an opportunity to take part.

1.1 Response rate

There were 2,811 addresses in the Postal Address File for Whiteley. 196 completed youth surveys were returned, approximately 20% of the response to the full residents' survey.

1.2 Acknowledgements

Marketing Means would like to thank Nicki Oliver for her help with this project, as well as all those who took part in this survey.

1.4 Author & publication

Marketing Means produced this report in July 2008.

Any press release or publication of the findings of this survey requires the approval of the author / Marketing Means. Approval will only be refused if it is felt that the intended use is inaccurate or a misrepresentation.

1.5 About reading this report

'Valid' responses

In most cases and unless otherwise stated, the results have been given as a percentage of the total overall valid responses.

This excludes those answering 'Don't know / It does not apply', or where the respondent has not given a response.

Rounding

Figures for graphs and most tables have been rounded and may not add up to 100%.

Confidence Intervals

Percentages found in a survey may not be precisely what we would obtain if we were able to interview every single person in a given population. But sampling theory means that we are reasonably certain to a given level that if we were to repeat the survey again and again we would obtain results that were similar. A confidence interval (CI), therefore, is a statistical range with a specified probability that a given parameter lies within the range. CI's are usually stated as +/- x% at the xx% level.

The table below shows the approximate confidence intervals at various sample sizes. The confidence interval for the Whiteley survey is, therefore approximately +/- 3%, which is very good.

Sample Size	Confidence Interval (50/50 split @ 95% level)
100	+/- 10%
400	+/-5%
625	+/-4%
1100	+/-3%
2200	+/-2%
4100	+/-1.5%

Subgroup analysis

Different people use services in different ways and for different reasons. Often this is related to demographic factors such as age, gender. In order to see if there are differences in attitudes and usage all questions have been cross-tabulated by:

Gender (male, female)

Age

The 'chi-squared' test has been used to ascertain if any there are any 'statistically significant' differences. Differences have been stated only where they are valid at the 95% level.

2. What young people do in Whiteley

Nearly all respondents to the youth questionnaire currently attend school or college (97%), with 5 of the 6 who do not probably not being of school age as they are under 7 years old, and 1 having been old enough to have left school.

The three most attended schools or colleges that are attended by respondents to the survey are Whiteley Primary (32%), Swanmore College of Technology (16%) and Henry Cort School (12%). These three schools or colleges were attended by 60% of all respondents.

Three fifths (62%) of young people who answered said that they do take part in after school activities. Team sports (38% & 18%) was the most popular first and second choice answer for all children, but with boys far more likely than girls to say this. Choir (18% & 8%) and other musical activities (14% & 17%) are very popular after school activities as well, with girls being much more likely to say this than boys. As the age of the child increases, there is an increase in participation in team sports and other musical activity, but a fall in participation in the choir.

Spending time with their family (72%) and friends (69% at their house and 63% 'hanging around'), watching television and films (71%) and playing computer games (70%) are the most popular things for young people to do in their spare time. Just over half (55%) also do sports. Girls are more likely to

spend time with their family and go to friends' houses, boys are more likely to play computer games, watch television or do sports. Most activities become less popular as the respondent gets older, with the exceptions of 'hanging around with friends', 'visiting friends houses' and 'going to the cinema'.

The most popular things about living in Whiteley are the parks (25%) and countryside / woodlands (20%). Boys are more likely to say both of these than girls, who are much more likely to say local amenities. Parks are more popular with respondents under 7, with the countryside / woodlands getting more popular as respondents get older.

The least popular aspects of living in Whiteley are 'nothing to do' (25%) and 'traffic / roads' (19%). Complaints about there being 'nothing to do' increase as respondents get older, with boys being more likely to do so. Responses from the under 7 year olds appear to have a strong parental influence with concerns about traffic / roads and schools being their highest priorities.

3. Young people's service usage and transport needs

The table below shows young people's usage, main locations and transport choices for the destinations and services they use.

As may be expected, older respondents appear to be more independent, with more of those over 12, and over 16 particularly, saying that they use public transport, probably meaning that they become less reliant on their parents giving them lifts to their various destinations.

Service usage, location and forms of transport used

Service	Used	Top 3 locations	Main form of transport
Education or training	Yes 96%	Whiteley Swanmore Fareham	28% Private 38% 16% Public 35% 11% Walk / cycle 28%
High street shops	Yes 83%	Fareham Southampton Whiteley	58% Private 68% 27% Public 22% 9% Walk / cycle 10%
Clothing & footwear shopping	Yes 74%	Fareham Southampton Fareham	36% Private 62% 35% Public 20% 19% Walk / cycle 17%
Post office	Yes 33%	Whiteley Spar Other	85% Private 11% 11% Public 3% 4% Walk / cycle 85%
Cinema	Yes 84%	Fareham Portsmouth Southampton	60% Private 78% 26% Public 21% 11% Walk / cycle 1%
Swimming pool	Yes 72%	Fareham Other Whiteley	45% Private 88% 23% Public 4% 15% Walk / cycle 8%
Other leisure facilities	Yes 58%	Other Meadowside Southampton	24% Private 59% 15% Public 9% 12% Walk / cycle 32%

Service	Used	Top 3 locations	Main form of transport
Bank	Yes 30%	Fareham	51% Private 69%
		Park Gate	24% Public 10%
		Locksheath	16% Walk / cycle 20%
Library	Yes 49%	Fareham	48% Private 88%
		Locksheath	48% Public 3%
		Other	48% Walk / cycle 9%

Young people are generally unaware of public transport links, with the most well known services being to Fareham. However, there is a desire amongst half of respondents to get more information about public transport services, with a website (45%) and leaflets (33%).

There are differences by age, with younger respondents being highly unaware of services, with awareness appearing to be relatively high in the secondary aged children. The services to Fareham are seen as the most important to improve.

4. What young people want in Whiteley in the future

A youth club (59%) is the possible future service that would be used most by young people in Whiteley followed by community café (47%) and an internet café (40%). A drop in centre is the least popular suggestion with only 20% expressing an interest. Interest in all the suggestions is highest in the two middle groups between 7 years old and 15 years old, falling away somewhat in the eldest age group (16 to 18).

The most popular day for holding a youth club is Friday (41%) followed by Saturday (25%) and Wednesday (20%). Friday is more popular with boys, whereas girls are more likely to choose Saturday or Wednesday than boys. Older age groups are more likely than younger ones to choose Wednesdays.

Music events (18%), sweets and drinks (17%), internet access (17%) and arts and crafts (16%) are the most popular events and activities for a youth club in Whiteley. Girls are more likely to want music, arts and crafts and theme nights. Boys are more likely to want a pool table and TV and DVDs.

A swimming pool, more leisure facilities and other 'activities for teenagers' are the most demanded future developments. 'More development' and the 'removal of woodlands, parks and open spaces' are things that young people least want to see happen in Whiteley.

Appendix 1: Tables

Contents of tables

Table 1: Do you go to school or college?.....	9
Table 2: Which school or college do you go to?	10
Table 3: Do you take part into any after school activities?	11

Table 20: Do you have anything further to say about your local community?

--

Access is bad

Access needs to be improved

Activities for teenagers

Activities for the youth. A cinema and restaurants/pubs would be good.

Adults things the children cause trouble, the only reason they do is because there is nothing for them to do!

Another school - primary and secondary. Less traffic. No more houses being built

As an older child, I feel isolated living in Whiteley

Better access

Better shops, banks and cinema needed.

Buses available to Swanmore school

children need more buses to the schools

Concerned about the lack of schools and not being able to get into them. No more houses should be built until there are more schools

Cycle routes are nice in Whiteley

Don't build more houses or more schools

Don't like the litter and rubbish

Don't want Whiteley to change too much. Would lose sense of community

Get a swimming pool

Good place for children. Nothing is needed, hope it stays the same

I enjoy living here

I feel really safe going out in the village on my own.

I like the green areas. The shopping centre is quite good

If more houses are going to be built, more playgrounds or fields/parks should be available, as being younger my parents do not want me too far away from the house.

Introduce a cinema and swimming pool.

Its great

Kids hanging around

Knock down empty units and build a youth centre

Leisure facilities needed

Less emphasis on sport especially football.
Library and swimming pool would be nice
Lots of sports facilities/clubs. Created a small social circle.
More activities for children in Swanmore
More buses = less traffic
More schools, better public transport.
More secondary schools
More things for teenagers to do
More to do for teenagers
More trains from Swanwick
Need a secondary school
Need a senior school
Need another primary school and more access roads
Needs a secondary school
Nice place
Nice to have a swimming pool, and cycling routes across the area.
No more houses
No more houses - getting too busy and overcrowded
Not buses, need more public transport
Not enough for young people to do.
Not much to do for teenagers. Needs a bowling, cinema, or swimming pool
Nothing for teenagers to do.
Nothing for teenagers to do. Need some shops for younger people and a cinema
Nothing to do for people my age
Nothing to do, normally go to Fareham
Nothing to do. Safe place to live. Need better shops and public transport
Shops
Shops for younger people
Sort out Skate park
Sort out the skate part, kids are using it for drink and drugs.
speed limits reduced

Summer events for children - e.g. Team activities

Swimming pool

Swimming pool!

The proposed development of Whiteley village should not go ahead. All it needs is some shops.

Whiteley is being spoiled by construction of more offices, causing more traffic.

Whiteley is lonely

Whiteley is good but there are not enough schools and we have to move away to get to a school

Would be nice to be able to walk to school with friends

Would like a swimming pool and a library

Would like to have a secondary school built

Would like to see a church built
